TO CORRESPONDENTS

I take pleasure in presenting herewith my sixteenth annual catalogue and price-list.

It has been my endeavor to list, as much as possible, only the very best and most satisfactory of both Fruit and Ornamental Trees and Plants. Whatever I am not able to grow on my own grounds, I procure from the most reliable Nurseries. My Nursery is located between Fifth Avenue and Center Street, about four blocks northwest from West End Station, San Rafael.

I warrant all trees and plants to be healthy, and true to label, but having no control over them after delivery, I do not GUARANTEE them to live and thrive, nor will I replace them, except any tree or plant should prove untrue to name; but in no case will be liable for any sum greater than the original purchase price.

My customers are requested to notify me immediately of any error that may have occurred in filling their order, so that the same may be rectified, as I desire to give satisfaction to all, who favor me with their order.

All orders delivered free in San Rafael and Ross Valley; a small charge for packing, to cover cost of material, will be made for all orders shipped by express or freight. All articles are at the risk of the purchaser, after being shipped.

Orders from unknown correspondents must be accompanied by cash or satisfactory reference. All bills payable first of the month.

NOMENCLATURE

All plant names, both botanical and common, have been revised to conform with 1923 edition of "Standardized Plant Names" if listed in that book. The only exceptions are a few uncommon items and novelties which that work does not include. This standardized nomenclature should unquestionably be followed by everyone from now on.

See list of common plant-names on last page.

RICHARD LOHRMANN

The West End Nursery

Fifth Avenue and Center Street, San Rafael, Calif.

Phone: S. R. 934.

FRUIT TREES

The varieties listed are the best and most satisfactory for this locality. Prices for new varieties, and larger quantities on application. The trees are 1 and 2 years old, averaging 4 to 6 feet in height.

Planting Season:

January to March, except Citrus trees, which ought not to be planted until the heavy winter rains are over, after February 15th.

	Each	Per 10
ALMOND:	\$.65	\$5.50

CONIFERS

Coniferous Trees are the grandest trees in existence. A good many of them are natives of the Pacific Coast, therefore at home in our climate. Though the most expensive varieties are of rather slow growth, until well established in the ground, they will grow into the finest specimen trees for the lawn in a few years. Prices are for plants, measuring 1 to 5 feet. Quotations for larger plants on application.

Planting Season:

October to March.

ABIES—	Each

canadensis, Hemlock.....	50c

EVERGREEN TREES and SHRUBS

Broadleaved Evergreens vary in size from the largest trees to the smallest shrubs; unlike the coniferous Evergreens, whose flowers are insignificant, most of these excel in brilliancy and floriferousness, others through their shining berries and foliage. These plants give our California gardens and Parks their distinctive feature.

Planting Season:

October to April; pot-grown plants of this class can be planted any time during the year.

DECIDUOUS TREES and SHRUBS

The best street and avenue trees are decidedly deciduous trees; they will give the necessary shade in summer and admit sunshine in winter. In this class are also the most gorgeous spring and summer blooming shrubs. Deciduous weeping trees are beautiful specimen trees for the lawn.

Planting Season:

November to March, after leaves commence to fall and before they commence to bud in spring.

ACER—

dasycarpum, Silver Maple.....	\$1.00-\$1.50
Platanoides, Norway Maple.....	\$1.50

These produce small compact flowers of perfect form and free blooming qualities. They are unequalled for cutting and garden display. Assorted varieties. Price.....35c each

DAHLIA IMPERIALIS—

The Mexican Tree Dahlia grows to a heights from 8-10 feet, foliage very ornamental; the light pink bell-shaped flowers appear in November. There is also a darker, lavender-pink variety, of even stronger growth; tubers of both varieties
75c each

I R I S

Irish germanica, commonly called German Iris, Flag-Lilies or Fleur de Lis, are amongst the most desirable and easiest grown of our spring flowering plants. The flowers fairly outrival the orchids in delicacy of structure and wide range of coloring. They are particularly adapted to our California climate, if planted in a well drained sunny location, requiring very little water during the summer. Avoid planting too deep and fresh manure.

Planting Season:

Sept.-Nov. or later, if the ground is not too wet.

FLAVESCENS:15c each

A delicate shade of soft yellow, sweet scented.

IRIS-KOENIG:25c each

Upper petals clear lemon, lower petals deep satiny brown, golden yellow border.

ISOLENE:20c each

Pale lavender, lower petals light purple overlaid with brown, yellow beard, very distinct.

LORELEY:25c each

Upper petals pale sulphur-yellow, lower petals deep ultra marine blue, veined creamy white, yellow border.

LOHENGRIN:25c each

A delicate shade of pale lavender blue, very large flowers.

NIBELUNGEN:25c each

Upper petals olive green suffused with yellow, lower petals deep purple, edged creamy white.

NOTHUNG:25c each

Upper petals light olive colored, lower petals delicate lilac, golden yellow beard.

PRINCESSE VICTORIA LUISE:.....25c each

Upper petals sulphur yellow, lower petals rich plum color with creamy edges.

PALLIDA SPECIOSA:.....20c each

Lavender, shaded blue, very fragrant, one of the best.

QUEEN OF THE GYPSIES:.....15c each

Old Gold, shaded pearl, lower petals maroon, marked yellow.

RHEIN-NIXE:25c each

Upper petals pure white, lower petals deep violet blue, margined white.

SHERWIN WRIGHT:15c each

Pure golden yellow.

COLLECTION of 1 doz. unnamed varieties,
\$2.00; 1 dozen named varieties, \$2.50.

HARDY PERENNIALS

Herbaceous plants are indispensable for filling out and planting amongst shrubbery, in the rock gardens, for the old-fashioned perennial border, etc. Most varieties, after once planted, will live and bloom without much attention, for many years. Prices are for field grown or transplanted seedling plants.

Planting Season:

October to March, as early as possible, whenever the soil is in good condition.
